lukasbunat

Full-Stack Developer with the primary focus on front-end with 4+ years of experience in web/software development and data science. I have an educational background in Computer Science and Business Informatics at many different universities all over the world. I thrive on multicultural teams and enjoy resolving everyday challenges using my analytical thinking and problem-solving skills.

## Technical Skills

Full-Stack technologies	Front-End	React.js 16.12, JavaScript ES6/2017, TypeScript, HTML5, CSS3, Sass
	Back-End	AWS services, serverless, Node.js, express.js, apache2, nginx
	Database	MongoDB (Mongoose, Monk), DynamoDB, MySQL, MS SQL Server, lowdb
	Other	Yarn, npm, webpack, parcel, react testing library, Jest, Cypress, postman
Data Science		Python, SQL SSIS/SSAS, BI, Tableau, Hadoop, PySpark, Rapid Miner, Hive, Spark, Jupyter
Collaboration		GIT (GitHub), JIRA, Trello, Slack, Asana, G Suite, MS Teams, Office 365

## Work Experience

**Developer & IT Consultant** 08/2021 - Present  
**KPMG Czech Republic** Prague, Czech Republic

- Senior React developer delivering full-stack & mobile application for medium/large-size Czech companies
- Consulting clients in data warehousing manners

**Web dev, tutor & consultant** 05/2015 – 08/2021  
**Freelance** Prague, Czech Republic

- Consult businesses, to digitalize their processes
- Building (web) automatization tools
- Build and maintain business React/WordPress websites
- Tutor university students in programming & math
- Implementing additional web apps' functionalities

**Video services specialist** 05/2018–05/2019  
**O2 Czech Republic a.s.** Prague, Czech Republic

- I helped to deliver the O2TV platform with 500K users
- O2TV is a content streaming platform built with ReactJS and supported with other JAVA SE/EE & C applications
- I integrated an audio/video player for Prague's city hall

**Big Data Analyst** 10/2017 – 12/2017  
**Comillas Pontifical University** Madrid, Spain

- Analyzed Spain's power distribution system to discover consumption patterns using clustering techniques
- Analyzed data were stored in Hadoop, I processed them with Spark (for faster processing) and I used Hive for SQL-like interface. Code is written in PySpark
- The findings (visualized in pandas) allowed to pre-assign the necessary resources in each range of time or season

## Featured Projects

### Portalo

- Portalo is a portal that links internal and external web apps into a single portal. Users' module allows manage employees and their information stored in a database
- I created this project as part of my diploma thesis and distributed it as an open-source code
- Front-end part is written in ReactJS with Ant Design and back-end using GraphQL with DynamoDB, Lambda, IAM, Amplify and Cognito services. Hosted on AWS.

### EconMetrics CZ

- The application provides company profiling, economical scoring and other multicriteria analysis using gathered and structured available public data
- Reports from EconMetrics can be used either by individuals or companies
- API enables automatization for 3rd parties
- Currently is project in development

### Company Business Intelligence Analysis

- I designed and created a database in MS SQL Server based on the structure of the given raw data
- With data pumps I imported raw data from excel, txt, csv and MS Access files, using ETL operations in SQL SSIS
- Based on stored data, I built OLAP cube in SQL SSAS and graphically represented them in Tableau

From 2014 to 2019 I had been working as a volunteer tutor at international student club at CTU.

## Soft Skills

New creative and innovative approaches to problem solving

Very good (cross-culture) communication for constructive teamwork

Enthusiastic and passionate about learning new things and technologies

Decisiveness and good decision-making (even under pressure) & leadership

Effective time management to ensure tasks' deadlines are met

## Education

University, Year(s) of Study	Field of study, Faculty	Location
 <b>University of Economics and Business</b> 2019 - 2021	<i>Information systems and technologies</i> <b>MSc. Graduate (Ing.)</b> Faculty of informatics and statistics	 Prague, Czech Republic
 <b>Czech Technical University</b> 2019	<i>Open Informatics</i> Faculty of Electrical Engineering	 Prague, Czech Republic
 <b>University of Finance and Administration</b> 2018-2019	<i>Applied Informatics</i> <b>Undergraduate (Bc.)</b> Faculty of Economics	 Prague, Czech Republic
 <b>Czech Technical University</b> 2014–2018	<i>Information Systems and Management</i> Faculty of Information Technology	 Prague, Czech Republic
 <b>Kyungpook National University</b> 2017	<i>Exchange studies</i> College of IT Engineering	 Daegu, South Korea
 <b>Indian Institute of Technology Madras</b> 2016	<i>Exchange studies</i> Department of Computer Science	 Chennai, India
 <b>Delft University of Technology</b> 2016	<i>Case study of Earthquakes in Netherland</i> The ATHENS Programme	 Delft, Netherlands
 <b>Mayflower College of English</b> 2012	<i>Summer language school</i>	 Plymouth, United Kingdom

## Certificates

**CISCO Academy**  
CCNA 1 (2013)

**Autodesk**  
AutoCAD (2014)  
Inventor (2014)

**KFN of UNESCO**  
Cross Culture Awareness Programme
